

Company Information 06/2011

In 2011, just as in the two previous years, LTi is investing many millions in new production equipment, machines and buildings. LTi is spending € 7.5 m to boost production capacities and processes at its German facilities alone. "The primary objective of our investments is to further improve the company's competitiveness and so safeguard jobs sustainably," explained Managing Director Dr. Wolfgang Lust.

Research and development is also a high priority: over € 10 m will flow into R&D in 2011. This wide-ranging investment in progress and technology is paving the way for the development of further new business areas and pioneering product innovations.

SMD assembly line, valued at € 1.8 m
